Vava'u, Kingdom of Tonga, South Pacific

GPS Coordinates of location: Lat: 18°41' 60 S Lon: 174°1' 60 W

Version 2024/01

Description of geographic area covered:

The **Vava'u Island group in the Kingdom of Tonga** is a spectacular tropical island paradise in the Pacific Ocean. It has a year-round climate suitable for swimming, snorkelling, diving and sailing. Some islands are ringed by white sand beaches while others have tropical forests, sea-level caves, and dramatic limestone cliffs with breath-taking vistas.

Remote and truly unspoiled, the waters around Vava'u are crystal clear with visibility exceeding 100 feet. Most of the islands are uninhabited, a few have villages, and a few have very small unique resorts with exceptional food. There is abundant sea life with over 100 species of colourful tropical fish, giant clams, manta rays, sea turtles, spinner dolphins, and July-October the Humpback whales! Truly a paradise with the only Polynesian Monarchy this is a truly remarkable place to explore.

All information is from my observations as a resident of Vava'u (since 2007) and citizen of Tonga (since 2015), it is given freely to improve tourism. I have sailed since I was 12, attended Outward Bound Anakiwa at 21. I have about 150 days of blue water sailing, Sunburst to yachts to Tall ships.NZ to Tonga 13 times. I am a divemaster. Voluntereed for NZ coastguard, Vava'u for 10 years with VERA (SAR).

I encourage yachts to join a Cruising Association of your choice, for those unforeseen events, sense of community, encourage the industry. Often I have been called blunt, this information is not to promote myself or my business, but to help you and Tonga. It is not a comparison and recommendation of providers (as some compendiums have done in 2023– if you wish to compare then use every provider, if you list a comment from one then talk to the other providers!). Ask if the operators recommend others, if they don't or won't help that gives you an indication of the persons character. This information is to be shared... Fair winds, following Seas. Leave only your wake and footprints in the sand, give more than you take...

I will add additional information on Ha'apai, Tongatapu, Eua, Niu when I can afford to travel, or get information from these Islands that is pertinent. I own a struggling Cafe with a TOP85k loan since COVID, no time, and no longer sail. If you wish to help with projects to help cruisers, like the following for example, come in and see me

Literally 100's of hours have been spent on this summary as people ask questions and I find information has changed.

ICE In Case of Emergency

911 or 70699 Fire. 922 or 70233 Police.

933 or 70201 Hospital.

944 or 70798 or 7720115/6 Electricity.

Yachts can also hail 16/26 and ask for emergency assistance from "Vava'u Radio". See NGO section below for more details.

Float plan copies

Starlink has made a pronounced affect on cruising life. I have noticed VHF chat, get together and a sense of community have declined since SL is so prevalent. After a few to many instances of boats being overdue (partly because of Covid degrading yacht maintenance, and extreme weather). I have created floatplan@vavau.to so you can forward your [float plan](#) (editable pdf) to me so I can respond quickly if you are overdue. Here are some of the reasons for a [float plan](#). This will not be used for Tropicana for it's marketing, but I will add your email for national BCC marketing!

ALL Government departments will give receipts with the Tongan Crest on the top – anything else is NOT an official receipt, DO NOT encourage corruption!!!! See the last page for a summary of fees.

Government Ministry lunch break is 12.30pm to 1.30pm

Pre-arrival into Tonga

Complete Advanced Notice of Arrival and email to info@customs.gov.to or fax +676 24124 at least 24 hours prior to arrival, an email confirmation will normally be sent. Covid vaccination is not required any more. ---Remember it is illegal to charter your yacht in Tonga, do you really want to lose your boat?

-Guns must be handed in at your arrival port, they will be returned when you leave.

-All recreational drugs are Class A here. A recent group of locals and expats were handed down 2 to 15 year sentences in 2022 for Cocaine offences. <https://vavau.to/tongaanoa.pdf> a text version is on the second to last page for low internet connections. ANOA details are checked and verified against Interpol and Pacific Customs Intelligence units, don't mess around!

Customs:

International check in (first Tongan port – AT WHARF, unless bad weather, but call Customs to confirm)

Fly your Q flag; call Vava'u Customs on VHF 26/16, VVMRA may answer with details on procedure, wait for Customs, Health and Immigration (\$100 Practique FEE) to check you in. NO OTHER FEES, apart from overtime. Clear your cockpit of any cigarettes, alcohol, fishing lures and smaller items.

Price comparisons

Tonga is remote, outer Islands are even more so. International shipping and domestic shipping prices have sky rocketed especially since COVID. Food retail prices should be around 9% higher in outer Islands – they are closer to 50% on average or higher. Very little price regulation happens, or margin control. The only competition is to find the highest price to charge. Tonga revenue mandated retail shops use an online (linked to Revenue) POS in 2023. It has helped improve tax collection from the mainly Chinese supermarkets. ALL transactions must be entered and a receipt given. Report breaches to revenue (discreet video is best – it does not breach privacy law as only one party must consent to a recording – YOU).

This information is correct when it was entered and is given for you to be aware for comparison purposes only, no responsibility is taken for price changes. It will be updated periodically. **TO DO quarterly**

Vava'u 25/2/24 NZ butter 227g TOP 7.00. NZ Milk tetra TOP4.00, Local bread TOP3.00 (price controlled). Mobile Internet Top2.85

We DO NOT encourage gifts to Government officials! Offer a sprite, coffee or juice...

Customs are open business hours Monday to Friday, Saturday till noon. You do not have to Clear in Saturday or after hours, an overtime fee of \$140 is charged on Saturday morning. Fly your Q flag, DO NOT come ashore, or allow non crew aboard – fines are \$1150 per person, plus deportation, confiscation of your vessel as in most countries!

Suitable casual attire to show respect please. Shirts, shorts, no see through clothing

International checkout; (last Tongan port - AT WHARF, unless bad weather). Immigration Office (only if you have crew flying in on one-way flights), then Marine and Ports to pay Lights and Buoy fee, then Customs and duty free fuel can begin once an Export permit has been written by customs.

Check calendar in Tonga for holidays, cruise ships, tides, sports and other events, also your destination country calendar for ETA. Nothing worse than prepping to leave and an event is on! **Pacific Calendar TODO**

As in ALL countries, you must leave the harbour and make your way out of Tongan waters... If you have issues VHF Customs and request return permission. The ONLY FEE payable on exit is to Ports and Marine unless you check out on weekends or overtime!!! DO NOT LOSE your Clearance/ZARPE documents! We have had several cases of people losing these.

DO NOT forget to complete your Advanced Notice of Arrivals for Fiji, NZ, and Australia etc.... massive fines! Take local currency with you checkin fees are FJD600+ NZD ? AUD ? Vanuatu ? New Cal ? Samoa USD? W Samoa ?

Fiji you must go to a quarantine ball, NZ/Aus you must go to a quarantine dock.

Check your passport is not within 6 months of expiring!

Cafe Tropicana has NZ yacht arrival packs – FREE. These have all the forms and information on arriving into NZ for a yacht

Customs, Health, Immigration have the option of coming aboard to check you out of the country.

Domestic checkout (not your final Tongan port. You DO NOT need to take the boat to the WHARF).

Marine and ports to pay lights and buoys FEE, then Boarding Officer at Customs for local movement report – NO OTHER FEES, apart from overtime.

CHECK your visa expiry DATES!

You will need boat papers and passports to complete this form.

Local Lights and Buoys fees must be paid at each Island prior to departing.

per GB (plan).

Covid history, yacht industry in Tonga:

Borders were closed January 2020. Covid was minimised by fairly tight requirement to stay in hotels for several weeks (MIQ) for people lucky enough to meet requirements. Very little (or fair) financial assistance was given to the Tourism industry from aid funds from overseas countries. An election in 11/21 changed the government. HTHH volcano 15/1/22 damaged the underwater fibre cable to Fiji (repaired 23/2/22) and buried the domestic cable to the outer Island (repaired 12/7/23). NZ, Australian and Fijian military force assisted but COVID became fairly widespread. Starlink delivered 50 units to Tonga (18/2/22), about 40 made it to the outer islands in very poorly planned locations. No assistance was forthcoming since the election. Maritime border reopens 27/9/22, minimal notice and less than 50 yachts for the year. Covid vaccination requirement removed 31/3/23. A few hundred yachts in 2023. September 2023 MDF (AUS/NZ) agrees to a review and assistance of the yachting industry, realistically this is a year long project before any improvement is felt. A yacht Steering Committee was approved by Cabinet and began mid Feb 2024. Tourism, Customs, Police, Marine and Ports, Health, Quarantine, Immigration, and eventually private sector. Please be mindful our tourism industry was poorly assisted, virtually no marketing of Tonga has occurred for many many years by Ministry of Tourism, which has 100 staff.

Services available within walking distance Vava'u:

- Hardware : EM Jones, (PTH is out of town)
- Laundry:Café Tropicana (front loading, rain water) or Bubbles Laundry (top loading, town supply water). No Drycleaners in Tonga
- Supermarkets – China Fortune, Neiafu Shopping Centre and various others, No credit cards accepted. No shops open Sunday, few restaurants open Sundays. No single one good shop, get receipts, compare prices.
Ministry of Revenue have installed POS terminals in nearly all shops to reduce tax evasion. It also helps reduce over charging and some profiteering. Ask for a receipt...
American Stores – Seventh Heaven, Utulangivake Petrol station, Famili Vava'u USA Trading. Tina Bourkes closed prior to 26
- Shopping is a lot better in Nukua'alofa, then Vava'u, then Ha'apai
- Produce at the 'Utakalongalu market on the waterfront, 6 days from 8am, best day Saturday, Night market Friday/Saturday up Tui road (police station road)
- Fish market just along from ferry ramp – best days Saturday, also you may hear a whistle from the fisherman. Ciguatera poisoning is in Rainbow Trout, Barracuda, and Moustache Snapper, not common in Vava'u, but it does occur
Ha'apai Northern reefs, active volcanoes to the west.
- Arts and Crafts market next to vegetable market on the waterfront, also Langafonua next to Tourism
- Post Office. Police, Fire Station and Governors Office
- Duty Free Liquor Shop
- Historical – Pounu Park
- **Cafe/Restaurant/Bar:** Please make reservations between July and October, if you can get menu's and preselect

A good idea to carry some PCR test for your own piece of mind.

Dengue, Zika and Chikungunya are in Tonga during the tourist season, bring deet spray etc

Staph is in the shoreline, do not swim if you have open cuts. Clean and cover 2-4 times a day, avoid an infection that requires antibiotics!

If you have to stay overnight in the Hospital, you have to supply your own linen, toiletries. Nurses do not look after you as such, you must have family, do friends this...

Quarantine:

Protecting Tongas plants and animals. Yacht rubbish clearance. Please also contact them regarding procedures for clearing in animals prior to arriving into the county.

www.vavau.to/biosecurityinvasivespecies.jpg

At this time no restrictions on fruit, veg, food. Best to declare fruit and veg though in case of issues. If you have crew they can bring in frozen meat in an insulated bag, with a receipt,.. Declare it on arrival and pay a very reasonable duty fee. Bear in mind below regulations as we tend to follow local trends.

No vets in Vava'u.

Fiji has increased biosecurity quarantine standards, no pork, labelled vac packed NZ meat, honey, eggs. animals bonded to private yachts.

Aus – no pork with bone, meat in cans only, no honey, cheese, eggs

NZ – labelled nz meat only, no honey, eggs, no veg

Other useful information specific to this area:

- **SPEED limit in the harbour** 5 knot – and/or no WAKE. Be aware of wake for other yachts, swimmers, divers, fisherman turtles, whales! By order Marine and Ports Harbourmaster.
- **Docks/Marina access in town.** The small boat marina in front of the 3 story blue roofed OTTO.G.SANFT VAVA'U LTD building is a good place to tie up the dinghy and has good access to the town. However, the dock is in pretty bad shape since 2017. So be careful when tying up. A few cruisers with inflatable dinghies received a puncture and or tear after docking here. Tongan government is waiting for AID money to repair/replace the dock after no maintenance was done and it sunk. Tongan viilage and fishing boats also use this marina. Several expats managed to get one pontoon re-established (Riki Tiki using line from Cafe Tropicana). Floating dock at Kraken Restaurant: welcomes yachts to use their dinghy dock for a safe place to leave their dinghy while they go to town. Climb the stairs and turn left to go to town. Kraken opens from 3pm Monday to Friday, 11am Saturday and Sunday
Floating dock at Mango Restaurant: They do not mind if you tie your dinghy here and go to town, Climb the stairs on the right and turn left to go to town.
- Please consider the environment and follow MARPOL rules and go 3 nautical miles to dump septic waste.
- Please walk on the pavement/sidewalk – NOT the road, this is a LEFT side driving country, the roads, drivers and cars are not very good. If no sidewalk walk on the right side of the road (against traffic so you can see vehicles)
- Cover and clean any open wounds, flies carry staph bacteria. Stay out of the sea, especially the first 50 metres from shore.
- Beware of Alofi a tall Tongan hawker – flag maker/bread/ feasts etc. he does not own cows and wil sell any lines/ropes you give him.. Rides a bike. Report any problems to the Police, or Ministry of Tourism. He does homemade flags from tshirt material, charges for everything he does and frequently exaggerates about services he offers. Cruises through town on a bicycle, catch phrase "hello my friend".to show you his guest book from other cruisers, AVOID talking to him...
- Security and Safety are not normally an issue, but lock your boat up, do not leave things in your dinghy etc
- Special Management Areas/Fish Habitat Reserve SMA/FHR are now in place, the legislation is designed to protect the breeding areas and environment. Fees to anchor, snorkel and dive can be levied by the village whose waters are protected. Officers carry ID, give receipts etc. An old tonga sma/fhr map is available https://vavau.to/Tonga_SMA-flier.pdf Individual island updates here <https://vavau.to/vavausma2023.jpeg> <https://vavau.to/haapaisma2023.jpeg> www.vavau.to/biosecurityinvasivespecies.jpg
- Whale watching regulations 2013
 - 1.Unless you are in a licenced whale watching or whale swimming vessel, you are not allowed to approach any whale closer than 300m
 2. Swimming with whales is prohibited unless you are on a licenced vessel and in the water with a certified guide.
 3. If a whale surfaces near you, you should change the course of your vessel, in a safe manner, and move 300m from the whales at no-wake speed.
 4. Kayaking with humpback whales is prohibited unless the kayak is launched from a licenced vessel.
 - 5 No jet Skis are allowed within 2km of any whale.First time offence is a fine of between \$1,000 and \$5,000 and/or imprisonment of up to 18 months

- VHF **Vava'u Cruisers Net** VHF Channel 26 8.30am each morning except Sunday, since late 80's. Alternative VHF 06 if 26 is down <https://www.facebook.com/vavaucruisersnet>

Please observe net etiquette – hail and wait for the net controller to call you, don't just jump in and start talking or you could double with another station or your in the wrong section. VHF is not to be used to advertise – an exception is made for the Vava'u Cruisers Net, lets not screw this up.

As in most places that have a vhf net, it is called Vava'u Cruisers Net (and has been since the late 80's). It is not the Vava'u Cruisers Information Net as one business has renamed it to promote it's business.

Cruiseships

Tonga gets over 20 cruiseships a year, Vava'u about 7+. Tours and venues are normally booked through the cruiseship, these venues/tours are not available except through the cruiseship, an exception are island tours using taxis but this is problematic as finding a taxi cannot be FUN or cheap! Most venues are normally paid tours from the cruiseship so not available to the public. **To do cruiseship guide for passengers – activities. Shops, cafes, internet, beer** www.vavau.to/cruiseships.pdf

For cruisers: not a good day to checkin, checkout, or refuel.

Customs staff are normally on board helping with immigration, wharf has stalls and tenders coming and going. Restaurants and cafes could be busy if the ship is over 2000 people.

The survey has been funded by Market Development Facility (MDF) which is an Australian and New Zealand Government joint Funding initiative
<https://www.facebook.com/marketdevelopmentfacility>

Tongamazing online Survey

I am also conducting an ongoing online survey, aimed at quantifying economic benefits of yachting, as well as gathering comments and suggestions to improve cruising facilities, and customised to Tonga. Information shared with Vava'u Tourism Association (VTA) and possibly Ministry Tourism and Tonga Tourism Advisory Board. **To do tonga surveys marine.doc**

Communications/Internet:

Tonga had the HTHH volcanic explosion 15/1/22 which created a Tsunami. This destroyed our submarine fibre cable. Tongatapu link was fixed in a few months, Ha'apai and Vava' were replaced in 7/23. Both Telco's relied on Satellite with Digicel invested in long range Microwave. Starlink also donated 50 units to Tonga, most were clustered in Government Ministries and Schools in the CBD of both outer Islands, these were supposed to be free to all public.

E-sims are not active with either Telco at the moment.

Voicemail options exist on cellphones, but not widely used or understood, suggest not leaving a message...

Turn data saver on. Android/Apple: search settings for "data saver" and activate it. Data is not cheap here or fast, this will save a considerable amount of data and give you more speed. It turns off autoplay, auto audio, drops image quality a little on facbook and youtube, it also stops autosync for backups, app polling. PC's turn on "metered connection" www.vavau.to/reducingdata.pdf

Digicel – owned by Telstra. GSM phone and internet services. 8nnnnnn number sequence. Internet top20 for 7gb over 30 day, \$50 for 22gb over 30 days, \$70 for 35gb over 30 days. Make sure you opt out of the off bundle casual rate or your money will disappear if you do not have a data plan active. International plans \$4 30 min, \$10 90 mins. Monthly local calling/texting \$12 2500 mins and texts to Digicel only otherwise 50 cents per min/text to TCC. Resellers all over, online credit card charging using My Digicel app, Cafe Tropicana is a reseller. SIM cards \$5 Also opt out of text ads – they get annoying. TCC – government owned. Landline, GSM phone and Internet services. 7nnnnnn number sequence. Internet top20 for 7gb over 30 days. No opt out of the off bundle casual rate. International plans \$3.45 40 min, \$2.30 15 mins. Monthly local calling/texting \$10 1000 mins and texts to TCC only otherwise 50 cents per min/text to Digicel. Resellers all over, online credit card charging using TCC Mobile/Bing apps, Cafe Tropicana is a reseller. SIM cards \$5. Also opt out of text ads – they get annoying. Call 800 222 and ask to remove text ads, takes 24 hours. TCC app does not work very well.

WANTOK – PNG/Local partnership just starting up, in Tongatapu only currently.

Niua only has TCC services, limited power/solar.

Be aware NZ has very strict biosecurity hull requirements as Fanworm is now established in NZ. You could get a local Tongan company to either do the hull clean work (and anchor well/chain) or inspect the work – with an invoice and underwater pictures or video. NZ could order your vessel straight to haulout if growth is to heavy.. A clean bottom also means a faster passage of course.

Responsible Cruising

Respect local ecosystems

Tonga has introduced marine reserves (SMAs and FHRs) to encourage conservation and village-only fishing areas.

Special Management Areas (SMA): NO fishing allowed and fees for anchoring, snorkelling may be charged by the Village.

Fish Habitat Reserves (FHR): NO anchoring, NO fishing. See SMA/FHR page 4 for chart links.

Whaleswim/watch: protected industry for your protection as well as the whales protection. Go with a trained/licenced operators, human vs Whale... you will lose everytime!! Don't be a dick!!! \$10,000 fine

Anchorage and mooring fields

Speed limit in Neiafu Bay is 5 KNOTS. You are responsible for your wake. Be aware of swimmers, spear fishermen, and pearl farms.

Tongans spear fish, hunt for sea cucumbers and tend pearl farms in anchorages and mooring fields DAY and NIGHT. At night they MAY use flashlights.

Anchor only in sandy bottoms and float your chain to protect coral. Damaged coral takes upto 75 years to regrow: don't be a dick. Tahiti is now anti yachts because of damage to coral and loss of fish... be respectful of someone's backyard.

Do not empty holding tanks close to a village!

Return rubbish to town, do not throw in the bush, overboard. Remove any fishing net, lines, plastic you find in the water – save the sea life and stop micro plastics entering the food chain

www.vavau.to/biosecurityinvasivespecies.jpg

Respect cultural traditions

Sundays are a day of rest, quiet day – no noise, no exercise (swim, run, bike). Go for a walk, eat, rest

Do not fly drones over villages, **without permission**,

Only 4 out of 2500+ yachts were sent to be hauled immediately. Watch out for open wounds getting infected if you do it yourself.

Whangarei is a city, they have a variety of privately and council owned marina, and a huge range of boatyards and who compete and cooperate. A variety of other services you would expect in a city. Extensive shopping. A very hospitable NZ city.

Opua is a small town, has one council owned Marina, and a small privately owned Marina. A smaller range of yacht services. Limited shopping. Generally easier entrance after 7+ days sailing from Tonga. Council owned marina is run as a private enterprise.

Passage planning to Fiji: to be completed, I have only done one passage to Savu Savu by accident

Lau is not an entry port, do not stop either. You face deportation. Savua Savu is a yacht friendly harbour. From Vava'u most people use the Nanuku Passage to Savu Savu. Trade or barter for fish, fruit, vegetables. School supplies are a priority trade item. Do NOT trade alcohol. Most villages are dry by choice. Respect the village traditions, history and culture.

Show interest in the village and people. You might learn something.

Absolutely no nudity – on your yacht, swimming etc. People can probably see you and may call the Police as it is illegal and offensive.

Marpol 73/78 Convention 1978

Tonga enacted “Marine Pollution Prevention Act” in 2020. It applies to ALL vessels in Tongan waters and enforces Marpol 73/78 as a result.

- Holding tanks for raw sewage, dumped at least 3 miles offshore, or pumped at an approved station.
- No rubbish dumping or oil dumping at sea.

Starlink:

Starlink has changed sailing. Unfortunately SL is currently going through the ISP licencing process in Tonga, and then residents can request permission/licencing for personal/business SL if this is granted, which seems unlikely based on Vanuatu SL. Who are now reapplying via a locally based reseller so a local presence requirement is met. Internet prices are about TOP2 a gb and max download 9Mbps, so not many business allow it. If someone does a favour for you using internet, think about paying or purchase something from them

Immigration NZ requirements

A medical visa may be required if you were in NZ and spent less than 12 months away, Friendly Island Medical Clinic in Nukua'lofa run by Dr Ana can do this. Open Monday to Friday 1630-1930, about 20-30 minutes walk from the port. They don't do appointments. Just walk to the clinic and state your business. They are familiar with the procedure and will file your results directly to your pending application.

Departing Tonga

Coins

If you have coins (unless you want momentos of Tonga or giving them away as gifts or you collect) they cannot be changed overseas at all. You could give them to a charity, or as a tip for your favourite café, taxi, market vendor...

Food Stores – NZ, Australia or Fiji

If you have stores on board that you cannot take into your next port (meat, honey etc) you could

- Trade it with a yacht that does not have that issue
- Trade it with a café/restaurant for services
- Store it with a café/restaurant if you are returning next year. I once stored 30kg cheese in our freezers for 8 months!
- Gift it to someone that has gone out of there way for you, or just needs a hand up!
- Ask someone to give it to a charity of your choice, or give it them yourself of course, Cafe Tropicana can assist with this – you pick the charity, it will be dropped off anonymously (we just say a yacht) or in your yachts name....

PAY IT FORWARD

Map of Vava'u harbour with description:

International Clearance

Berthing Note:

You will be instructed to tie up to the main wharf on the west side, in front of a container, lined up with your bow towards the main shore. This area is fenced off from the rest of the wharf. Occasionally the fishing wharf has to be used – a fee is charged \$20, a receipt should be offered. A sunken fishing boat is at the western end of the wharf since 2020 it is owned privately..

Also an island of silt is 50m off the wharf.at the eastern end. It has been increasing for many years from the storm drains in town.

A dock hand will (should) direct you into position and assist with line-handling. It is advisable to sling your fenders horizontally to protect your vessel from the hard rubber wharf bumpers which are spaced well apart. Ferry dock schedule is subject to change, you will be told to move quickly if a domestic ferry comes in.

WARNING: rats, cockroaches etc have walked along mooring lines onto you vessel. A recent case proved expensive (upto AUD5000) entering Australia after recent rat poo was found by ABF.

A guide to coffee...

Pacific Fuels – Petrol/diesel:

Duty free is available on the same day as the vessel is cleared out from Tonga and is the final port. It can be shared to meet minimums. Duty free is a significant saving, Fiji does not do duty free fuel. Fuel bunker is closed for trucks if a bunker boat is in the harbour. Appointment times are indicative only, 6 hours late is the record. Duty free is about 30% cheaper than the retail price at the pump (15% CT/15% Duty).

Fuel stations are on the main road, and on the road towards Utungake No credit cards! Café Tropicana has a few LOAN diesel bottles, also a hand cart or hire car for fuel runs.

Occasionally Tonga has fuel shortages, bunkering was extended in 2019. Our last shortage was because of bad weather delaying the bunker boat. My advice never let your jerry can's run to low. Tropicana may be able to help if you run out of petrol...
